

# DUST CONTAINMENT EVOLVED.™

## SAVES TIME & MONEY

Less labor. Less waste. Lower job costs.

## FAIL-SAFE™ RELIABILITY

Durable, modular components for added protection.

## ADVANCED CONTAINMENT

New techniques. More configurations. Greater control.

## REUSABLE & ADAPTABLE

Reuse across projects. Reconfigure as needed.

## PATENTED HOOK & LOOP SYSTEM

### SELF-CLOSING

#### MAGNETIC ENTRY STRIP™

Hands-free entry  
that closes  
behind you.

### FAIL-SAFE™

#### REUSABLE ZIPPER

Remove.  
Replace.  
Reuse.

DESIGNED FOR CRITICAL ENVIRONMENTS™

# SYSTEM OVERVIEW

## PATENTED HOOK & LOOP SYSTEM

# HOW REUSABLE ENTRY WORKS

**REUSABLE ENTRY**  
ZIPPER OR MAGNETIC

**HOOK BACKING**  
GRIPS LOOP FACE OF  
MOUNTING STRIP RE-FILL™

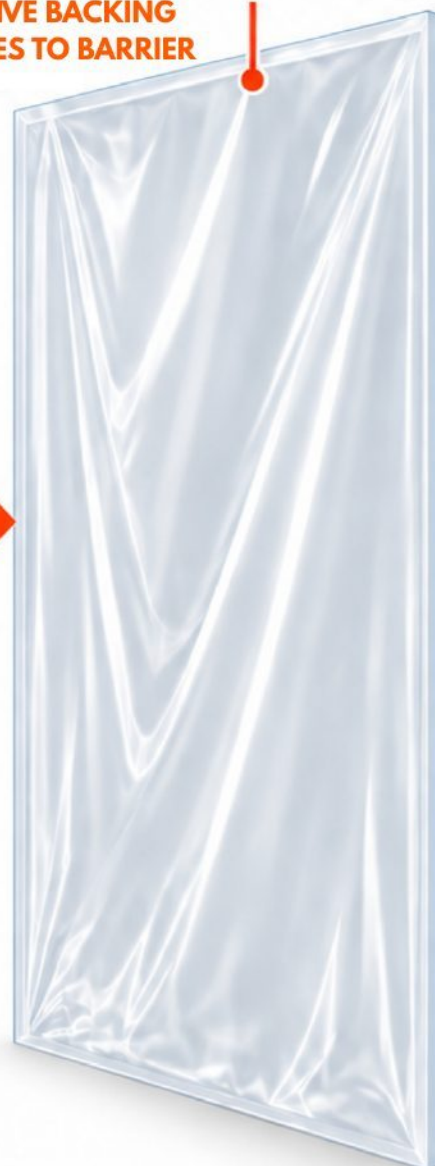

**MOUNTING STRIP**

**RE-FILL™**

**ADHESIVE BACKING**  
ATTACHES TO BARRIER

**PLASTIC BARRIER**

**1**

**PEEL & STICK**

Remove the liner. Adhere the loop strip to the plastic barrier.

**2**

**CUT THE OPENING**

Cut through the center of the mounting strip and plastic barrier.

**3**

**ATTACH THE ENTRY**

Press the reusable entry's hook backing onto the loop face.

**4**

**REUSE WITH A RE-FILL™**

Install a Mounting Strip Re-Fill™ on a new barrier, then reattach the entry.

CREATE A  
**SELF-CLOSING ENTRY**  
IN ANY PLASTIC BARRIER

### SAVE TIME & MONEY

*Faster Workflow with Hands-Free Entry*

### CUSTOM POSITIONING

*Place Entry Left, Center or Right*

### REUSABLE

*Hook & Loop Design for Reuse Across Projects*

### NEGATIVE-AIR RATED

*Designed for Negative-Air Applications*

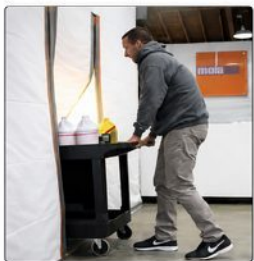

## PATENTED HOOK & LOOP SYSTEM

### DESIGNED FOR NEGATIVE PRESSURE

- Maintains 5+ pascals of negative air pressure
- Self-closes to help preserve containment
- Hands-free access reduces touch points

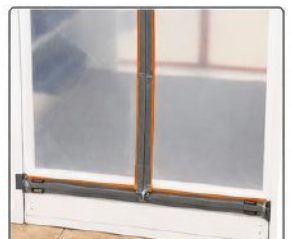

### CUSTOM-WIDTH MAGNETIC FLAP DOORS

- Space multiple strips to create custom width flaps
- Hands-free access for large equipment & more
- Use dual flaps to separate entry and exit traffic

### EXTEND HEIGHT. CREATE THRESHOLDS.

- Extend entry height for forklifts and large equipment
- Configure floor-level or raised thresholds
- Help limit air leakage during temporary pressure loss

# RE-U-ZIP

# MAGNETIC ENTRY STRIP™

## CRITICAL SAFEGUARDS

Designed to support pressure control, safer access, and adaptable containment.

### PRESSURE CONTROL MAINTAIN NEGATIVE AIR PRESSURE

Supports 5+ pascals of negative air pressure in controlled environments.

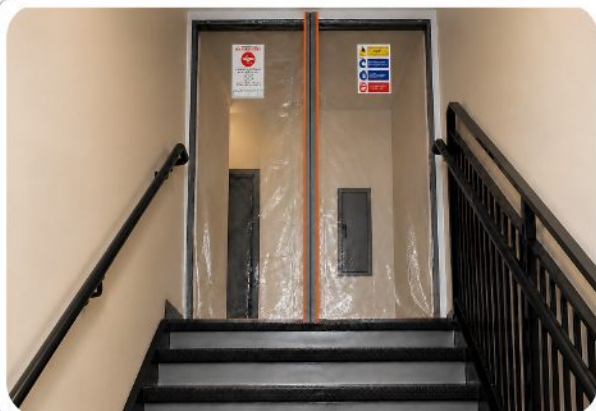

**RELIABLE SEAL**

### ADDED SAFEGUARD CREATE THRESHOLDS USING MAGNETIC EXTENSIONS™

Helps reduce floor-level air leakage during temporary pressure loss.

**LIMIT AIR ESCAPE**

### SAFER WORKFLOWS HANDS-FREE ACCESS

Self-closing entry helps reduce trip hazards in controlled environments.

**REDUCE TRIP HAZARDS**

## CONTROL THE AIR • PROTECT THE WORKFLOW

# RE-U-ZIP

# REUSABLE DUST BARRIER ZIPPER™

## THE ONLY REUSABLE ZIPPER ENTRY FOR PLASTIC BARRIERS

### FAIL-SAFE™ RELIABILITY

*Easy Removal & Replacement Safeguard*

### REUSABLE

*Hook & Loop Design for Reuse Across Projects*

### LOCKABLE

*Controlled Access for Safer Work Areas*

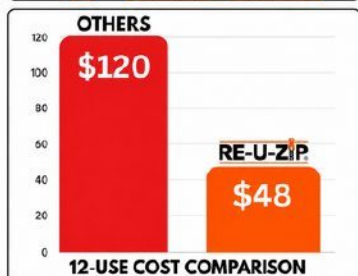

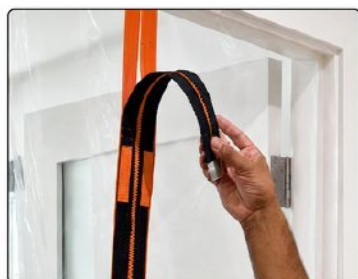

### PROFESSIONAL GRADE

*Designed for Critical Environments™*

## PATENTED HOOK & LOOP SYSTEM

## FAST, FAIL-SAFE™ REPLACEMENT

- Fail-Safe™ | Swap damaged zippers instantly
- Avoid teardowns that disrupt containment protocols
- Keeps projects moving without unnecessary downtime

## SECURE, CONTROLLED ACCESS

- Lockable design restricts unauthorized entry
- Protects occupants from unintended exposure
- Maintains containment during inactive periods
- Supports safety and liability protection

## REUSE THAT REDUCES COSTS

- Use one zipper across multiple jobs
- Replace only the low-cost Mounting Strip Re-Fill™
- Cut ongoing costs and material waste
- An eco-friendly alternative to disposable zippers

# RE-U-ZIP

# REUSABLE DUST BARRIER ZIPPER™

## CRITICAL SAFEGUARDS

Designed for fast replacement, controlled access, and dependable containment.

**FAIL-SAFE™ RELIABILITY**

### REMOVE & REPLACE INSTANTLY

Swap a damaged zipper using the existing mounting strip—no full teardown, delays, or compromise.

**CONTROLLED ACCESS**

### LOCKABLE ENTRY PROTECTS THE WORK AREA

Secure the zipper pull to the built-in grommet to help deter unwanted entry and support safer containment workflows.

# MOUNTING STRIP RE-FILLS™

**REUSE YOUR ENTRY, ONLY REPLACE THE STRIP.**

## 12-USE COST COMPARISON

## FOR USE WITH RE-U-ZIP® MAGNETIC ENTRY STRIP™ & FAIL-SAFE™ ZIPPER

Mounting Strip Re-Fills™ reduce costs, support interchangeable entry styles, and allow instant zipper replacement to eliminate a common containment failure point.

### LOWER CONSUMABLE COSTS

Replace only the mounting strip.

### FAIL-SAFE™ REPLACEMENT

Swap damaged entry components in seconds.

### INTERCHANGEABLE ENTRIES

Use zipper or magnetic entry styles.

### LESS BARRIER REBUILDING

Keep the existing containment intact.

#### FAIL-SAFE™ DUST BARRIER ZIPPER

#### SELF-CLOSING MAGNETIC ENTRY STRIP™

# HOOK&LOOP BARRIER PANELS™

## MODULAR. ULTRA-CLEAR. FIRE-RATED.

Create professional, crystal-clear containment that adapts to any job. Industrial hook & loop lets you install, expand, replace, or reconfigure panels in minutes with durable, fire-rated protection.

### ULTRA-CLEAR VISIBILITY

Clear sightlines. Maintain containment.

### NFPA 701 FIRE-RATED

Durable, flame-resistant material for demanding job sites.

### MODULAR & RECONFIGURABLE

Install, expand, or replace in minutes with industrial hook & loop.

### CUT TO SIZE

Easily trim panels on-site for a precise fit in virtually any space.

### CUSTOM BARRIER DOORS

Works with RE-U-ZIP® Zippers and Magnetic Entry Strips™ to create fully custom dust barrier doors.

### PROFESSIONAL APPEARANCE

Clean, polished look for occupied spaces.

## CUSTOMIZE YOUR DECON CHAMBER

FLEXIBLE SOLUTIONS  
FOR YOUR APPLICATION

**SINGLE SELF-CLOSING
